

DATE _____

- 1 Solve.
- a. $100 + 134 = \underline{\hspace{2cm}}$
 - b. $201 - 100 = \underline{\hspace{2cm}}$
 - c. $\underline{\hspace{2cm}} = 296 + 100$
 - d. $\underline{\hspace{2cm}} = 407 - 100$

- 2 The temperature was 50°F in the morning. It was 65°F in the afternoon. How much did the temperature change?

Number model:

Answer: _____ $^{\circ}\text{F}$

- 3 Write the number word for 911.

- 4 Circle the expanded form that shows the smaller number.

$300 + 80 + 7$

$400 + 10 + 1$

- 5 **Writing/Reasoning** Look at Problem 1. What pattern do you notice when you add 100? When you subtract 100?
